Work Experience

SharePoint Specialist

CLEAR CONCEPTS

2021 - Present

Winnipeg, MB

Responsibilities:

- Monitor and maintain backup infrastructure for 200+ servers/workstations.
- Point of escalation for Microsoft SaaS products such as Azure, Entra, SharePoint, and Power Platform.
- Processing domain transfers, registrations and managing DNS updates
- SharePoint administrator for 2000+ sites for various businesses

Achievements:

- Streamlined backup monitoring processes to increase monitoring rate 700% in the same amount of time.
- Constructed custom documentation types for clearer description of backup infrastructure

Web Developer

Gustin Quon Inc.

2018 - 2019

Winnipeg, MB

Responsibilities:

- Design, publish and maintain many WordPress projects
- Manage a remote team of developers and designers on various projects
- Coordinate with the SEO team to deploy improvements to search.
- Optimize and improve speed on sites sub 2 seconds and achieve 100/100 Lighthouse scores

Achievements:

- Developed a Ruby on Rails app to procedurally create and deploy landing pages for our clients' marketing campaigns from a simple form fill
- Improved backlink site uptime to 99.99% and cut manual maintenance work by 75% with a devops vendor to migrate from low-tier hosts with hundreds of accounts to a singular kubernetes deployment spanning a few cloud providers
